SEND Analysis Dashboard

Wandsworth

June 2023

mime *making information matter*

Purpose of this dashboard

This dashboard draws together a range of SEND indicators into a concise, graphical report. It compares your LA performance with England and statistical neighbours averages, as well showing trends over time. It can be used to identify relative strengths and weaknesses, plan and commission services, set targets and demonstrate impact. The dashboard covers key datasets relevant to the 3 questions, as in the evaluation schedule in Ofsted's SEN Inspection Handbook, that inspectors answer when making their evaluations[1]:

    A. Identification: *How effectively does the local area identify children and young people with SEND?*

    B. Assessment & Provision: *How effectively does the local area assess and meet the needs of children and young people with SEND?*

    C. Outcomes: *How effectively does the local area improve outcomes for children and young people with SEND?*

The dashboard should therefore be particularly useful in preparation for and during an Ofsted inspection, as well as informing planning throughout the year.

Contents

Important:
The SEN2 data released in June 2023 is the first SEN2 release based on child-level data, having previously been an aggregate collection. Initial analysis of this data suggests that a small number of LAs have data quality issues that may affect your benchmark comparisons (for example, your statistical neighbour rank), which may get resolved in a future release of data. There are also a number of changes to the indicators currently made available from the collection. For more information, refer to the Notes section.

Latest updates

Updated: Incidence and primary need of pupils with SEND - January 2023

[1] See paragraphs 5 and 44 of the SEN inspection handbook at: www.gov.uk/government/publications/local-area-send-inspection-guidance-for-inspectors

How to interpret the analysis
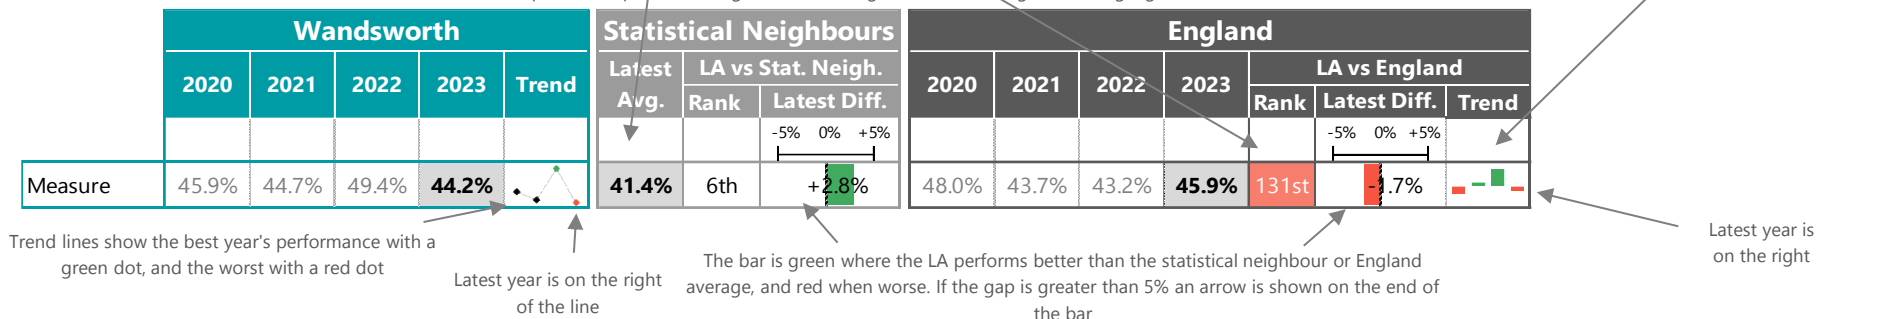

Each indicator on the dashboard has:

- a trend line to show the LA's change over time for up to four years (subject to availability of the data)
- a rank of the LA indicator against its 10 statistical neighbours and the ~151 LAs in England (although in some instances some LA data is suppressed and therefore excluded from the rankings)
- two bar charts showing the difference to the LA's statistical neighbour average and the England average. Note that if the indicator is a percentage the difference is in percentage points; for example, 20% vs 23% is a 3% point difference. If the indicator is a number, the difference is a percentage, for example, 100 vs 110 is a 10% difference
- a 4 year trend showing how the LA performs vs England using the same method as the two bar charts. The latest year of data is on the right.

There are two types of indicator, performance indicators and volume & incidence indicators, as shown below:
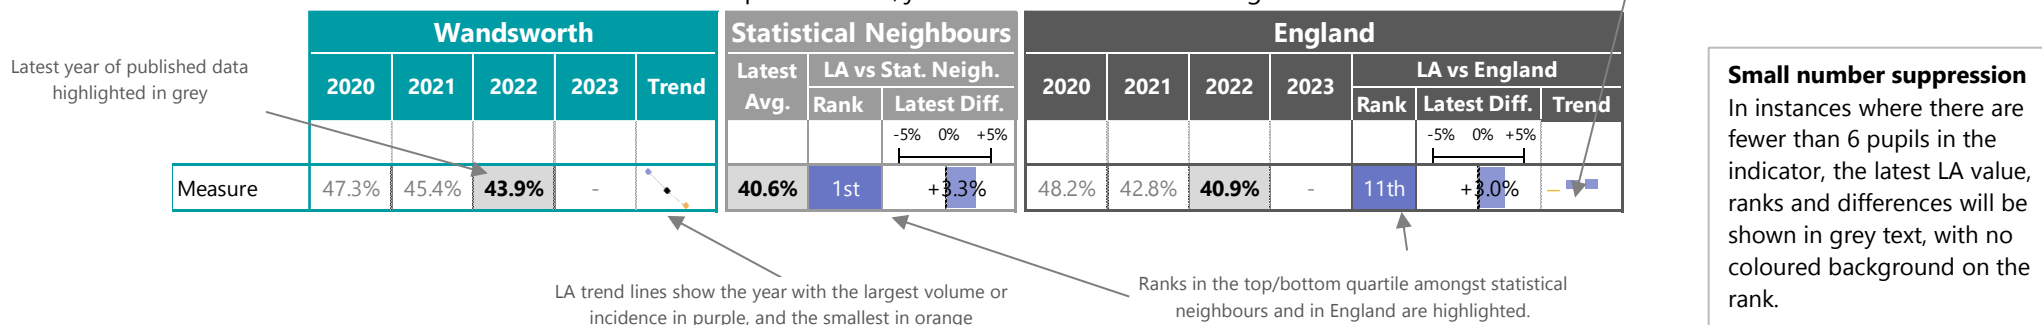

Performance indicators

Performance indicators are those that allow the measurement of "better" or "worse" performance. Note that for some performance indicators better performance means a higher percentage (e.g. achievement of attainment thresholds), while in other cases lower means better (e.g. absence rates).

The best performing statistical neighbour ranks 1st, while the worst ranks 11th. The worst ranked LA in England ranks ~151st. Ranks in the top/bottom quartile amongst statistical neighbours and in England are highlighted.

A 4 year trend of how you compare to England

Wandsworth					Statistical Neighbours			England						
2020	**2021**	**2022**	**2023**	**Trend**	**Latest Avg.**	**LA vs Stat. Neigh.**		**2020**	**2021**	**2022**	**2023**	**LA vs England**		
						Rank	**Latest Diff.**					**Rank**	**Latest Diff.**	**Trend**
							-5% 0% +5%						-5% 0% +5%	
Measure	45.9%	44.7%	49.4%	**44.2%**		**41.4%**	6th	+2.8%	48.0%	43.7%	43.2%	**45.9%**	131st	-1.7%	

Trend lines show the best year's performance with a green dot, and the worst with a red dot

Latest year is on the right of the line

The bar is green where the LA performs better than the statistical neighbour or England average, and red when worse. If the gap is greater than 5% an arrow is shown on the end of the bar

Latest year is on the right

Volume & incidence indicators

Volume & incidence indicators have no "better" or "worse" performance, just more or less of something.

The bar is purple where your LA has a larger volume or incidence than the average, and orange when lower

Latest year of published data highlighted in grey

Wandsworth					Statistical Neighbours			England						
2020	**2021**	**2022**	**2023**	**Trend**	**Latest Avg.**	**LA vs Stat. Neigh.**		**2020**	**2021**	**2022**	**2023**	**LA vs England**		
						Rank	**Latest Diff.**					**Rank**	**Latest Diff.**	**Trend**
							-5% 0% +5%						-5% 0% +5%	
Measure	47.3%	45.4%	**43.9%**	-		**40.6%**	1st	+3.3%	48.2%	42.8%	**40.9%**	-	11th	+3.0%	

LA trend lines show the year with the largest volume or incidence in purple, and the smallest in orange

Ranks in the top/bottom quartile amongst statistical neighbours and in England are highlighted.

Small number suppression
In instances where there are fewer than 6 pupils in the indicator, the latest LA value, ranks and differences will be shown in grey text, with no coloured background on the rank.

A. Identification

How effectively does the local area identify children and young people with SEND?

Statistical neighbours

Statistical neighbours are a way of benchmarking your performance against other local authorities that have similar characteristics, rather than simply being geographically close. The statistical neighbours for Wandsworth are listed below, ranked by similarity to Wandsworth (1 being most similar) and with their state-funded school population size. This reflects the April 2021 updates to statistical neighbours.

Rank (1 = Most alike)	LA	School population
-	Wandsworth	33,000
1	Hammersmith and Fulham	20,000
2	Kensington and Chelsea	14,000
3	Merton	28,000
4	Westminster	22,000
5	Camden	22,000
6	Reading	25,000
7	Barnet	62,000
8	Brighton and Hove	31,000
9	Haringey	38,000
10	Richmond upon Thames	29,000

NB. The statistical neighbour average in the dashboard is non-weighted and includes Wandsworth.

Data sources

Below is the list of data sources including the latest year of data shown on the dashboard. Full footnotes and methodologies can be found within the individual sources.

Prevalence & characteristics - school and resident populations

1 https://www.gov.uk/government/collections/statistics-special-educational-needs-sen

Section: Statements of special educational needs (SEN) and education, health and care (EHC) plans / Latest time point on dashboard: Data taken from 2023 file. Notes: 2021 and 2022 data is impacted by COVID-19. Some indicators are based on the 2022 calendar year. 0-24 percentages calculated using 2021 ONS population. Data based on where the pupil is resident

2 https://www.gov.uk/government/collections/statistics-looked-after-children

Section: Outcomes for children in need, including children looked after / Latest time point on dashboard: March 2022
Notes: Looked after children refers to those looked after continuously for at least twelve months at 31st March. Children on a child protection plan excludes looked after children. Children in need excludes those on a child protection plan and looked after children. Data matched to census and refers to compulsory school age children only. Data based on young people whom the local authority looks after

3 https://www.gov.uk/government/collections/statistics-special-educational-needs-sen

Section: National statistics on special educational needs in England / Latest time point on dashboard: January 2023 / Notes: Figures are for all schools, including non-maintained special schools, and independent mainstream and special schools. Data based on where the pupil attends school

4 https://www.gov.uk/government/collections/statistics-special-educational-needs-sen

Section: National statistics on special educational needs in England / Latest time point on dashboard: January 2023 / Notes: Figures are for state-funded schools only. Data based on where the pupil attends school

5 https://www.gov.uk/government/collections/statistics-special-educational-needs-sen

Section: National statistics on special educational needs in England / Latest time point on dashboard: January 2023 / Notes: Data presented (including national) is a weighted average of primary, secondary and special school data (PRUs are excluded). Includes both EHCP and SEN Support pupils. The very small number of special school pupils recorded as having no SEND are excluded from this analysis. Data based on where the pupil attends school

Implementation

6 https://www.gov.uk/government/collections/statistics-special-educational-needs-sen

Section: Statements of special educational needs (SEN) and education, health and care (EHC) plans. Latest time point on dashboard: Data taken from 2023 file but indicators are based on 2022 calendar year. 0-24 percentages calculated using 2021 ONS population. Notes: 2020 and 2021 data is impacted by COVID-19. Percentage of assessments refers to assessments where a decision was reached in that calendar year. By 1 April 2018, local authorities were required to have transferred all statements to EHCPs, or to have made a decision not to issue an EHCP. Data based on where the pupil is resident. Following the change to a person level SEN2 collection in 2023, the following changes have been made in the latest release of data:
-Children still being assessed for an EHCP in January is not available for the latest year.
-EHCP discontinued: "Left school" is no longer used, but additional reasons have been introduced (including no longer wishes to engage in education, reached age 25, and moved to higher education or employment). The dashboard also shows deceased and moved abroad in the "Other reason" category, which may not be comparable with previous years "Other reasons"
-Mediation and tribunal data now shows a breakdown for these resulted from a decision to assess, or a decision to issue. The proportion of mediation cases that went to tribunal is not currently available for 2022.

7 https://www.gov.uk/government/collections/tribunals-statistics

Section: SEND Tribunal tables: statistics on the appeal rate to the SEND Tribunal / Latest time point on dashboard: 2022 calendar year / Notes: Appeal rate is based on total appealable decisions. Data based on where the pupil is resident

Provision for EHCP pupils & Adulthood

8 https://www.gov.uk/government/collections/statistics-school-and-pupil-numbers

Section: National statistics on school numbers / Local authority tables / Latest time point on dashboard: January 2023

Number of special schools and number of pupils in special schools both include hospital schools. Data based on where the pupil attends school

9 https://www.gov.uk/government/collections/statistics-school-and-pupil-numbers

Section: Cross-border movement / Latest time point on dashboard: January 2022. Data based on where the pupil is resident and where they attend school

10 https://www.gov.uk/government/collections/statistics-special-educational-needs-sen

Section: Statements of special educational needs (SEN) and education, health and care (EHC) plans. Latest time point on dashboard: January 2023

Notes: 2021 and 2022 data is impacted by COVID-19. Data is grouped to a higher level than in the source in order to simplify analysis.Percentages of 16-25 year olds with an EHCP are calculated using a sum of the 16-19, and 20-25 EHCP population reported in the same data source. Data based on where the pupil is resident.

11 https://digital.nhs.uk/data-and-information/publications/statistical/adult-social-care-outcomes-framework-ascof

Latest time point on dashboard: 2021/22 financial year. 'Adults with learning disabilities' refers to adults with a primary support reason of learning disability support who received long term Nursing, Residential or Community support. Data based on where the person is resident

12 https://www.gov.uk/government/collections/section-251-materials

Latest time point on dashboard: 2022/23 financial year. Data generally based on the resident population of all young people of the relevant age. Note: Data is missing for the 2020/21 financial year because local authorities were not required to submit this data due to Covid-19.

Primary attainment

13 https://www.gov.uk/government/collections/statistics-early-years-foundation-stage-profile

Section: Results at national and local-authority level / Latest time point on dashboard: 2021/22. Data based on where the pupil attends school

14 https://www.gov.uk/government/collections/statistics-key-stage-1

Section: Phonics screening check and key stage 1 assessment - Phonics Tables / Latest time point on dashboard: 2021/22. Data based on where the pupil attends school

15 https://www.gov.uk/government/collections/statistics-key-stage-1

Section: Phonics screening check and key stage 1 assessment - KS1 Tables/ Latest time point on dashboard: 2021/22. Data based on where the pupil attends school

16 https://www.gov.uk/government/collections/statistics-key-stage-2

Section: National curriculum assessments at key stage 2 / Latest time point on dashboard: 2021/22 revised. Data based on where the pupil attends school

Secondary and post-16

17 https://www.gov.uk/government/collections/statistics-gcses-key-stage-4

Section: GCSE and equivalent results, including pupil characteristics / Latest time point on dashboard: 2021/22 revised

Due to the cancellation of exams in response to COVID-19 and the change to using teacher assessments, 2020 and 2021 results are not directly comparable with prior years. Data based on where the pupil attends school

18 https://www.gov.uk/government/collections/statistics-attainment-at-19-years

Section: A level and other 16 to 18 results / Local authority tables / Latest time point on dashboard: 2021/22 revised

Due to the cancellation of exams in response to COVID-19 and the change to using teacher assessments, 2020 and 2021 KS5 exam results are not directly comparable with prior years. 2019 data is provisional. Data based on where the pupil attends school

19 https://www.gov.uk/government/collections/statistics-attainment-at-19-years

Section: Level 2 and 3 attainment / Latest time point on dashboard: 2021/22 (Aged 19 in 2021/22 academic year)

Due to the cancellation of exams in response to COVID-19 and the change to using teacher assessments, 2020 and 2021 qualification levels are not directly comparable with prior years. Data based on where the pupil attends school

Pupil destinations

20 https://www.gov.uk/government/collections/statistics-destinations

Section: Destinations after key stage 4 for state-funded mainstream and special schools / Latest time point on dashboard: 2019/20 cohort (Destination in 2020/21)/ Notes: Special/AP/independent/other provision includes all specialist, alternative, and independent provision, as well as pupils who have completed the required six months but with two different providers (e.g. a month in sixth form followed by five months in an FE college). Data based on where the pupil attended school

21 https://www.gov.uk/government/collections/statistics-destinations

Section: Destinations after key stage 5 for mainstream school and college students / Latest time point on dashboard: 2019/20 cohort (Destination in 2020/21) Note: Based on the destinations of young people completing an A level or equivalent level courses only (level 3 cohort). Data based on where the pupil attended school

22 https://www.gov.uk/government/publications/neet-and-participation-local-authority-figures

Latest time point on dashboard: March 2022 / Notes: Data shows the March figure for each year.
Data based on where the student is resident

23 https://www.gov.uk/government/publications/neet-and-participation-local-authority-figures

Latest time point on dashboard: 2022/ Notes: Data is always given for the average of December, January and February.
Data based on where the student is resident

Absence

24 https://www.gov.uk/government/collections/statistics-pupil-absence

Latest time point on dashboard: 2021/22 (full year)

Note: Data for 2020 and 2021 was impacted by COVID-19 related school closures and is therefore not comparable to other years.

Sessions missed due to self-isolation, shielding, quarantining after returning from abroad and class bubbles sent home are not included as absences. However, sessions missed due to a pupil having a confirmed infection of COVID-19 are included as absences. Data based on where the pupil attends school.

Exclusions

25 https://www.gov.uk/government/collections/statistics-exclusions

Latest time point on dashboard: 2020/21 academic year. Note: Exclusions data for 2020 and 2021 is for the full academic year but is impacted by the school closures (though exclusions were still possible). The 2020 and 2021 data is therefore not directly comparable with other years. Data based on where the pupil attends school
